I had a morning free and so contacted Jared at the very last minute. He organised a hike up Table Mountain and a visit to Llandudno Beach. The views from the mountain were stunning and well worth the hike. Jarrod's enthusiasm for his City and the surrounds really comes through. Lunch was provided and was tasty and welcome at the top. I got some amazing photos and memories to take home. The one on one tour works really well and allowed me to hike at a comfortable pace and take the time for as many photos as I wanted. Jared makes great company and really helped me maximise my short time in the City. Thoroughly recommend his tours which are amazing value and hugely enjoyable.

My experience at the one day safari at the Aquila Private Reserve was wonderful. Me and my family had a great time from the very moment we were picked up at our apartment. The road trip is amazing with beautiful landscapes, the Aquila Reserve is a fantastic place with good food, a great pool we could swim and enjoy the sunny and hot day, and the game drive was incredible. We saw all those animals from up close, living freely at the enormous area of the reserve. And of course, our lovely guide, Jared, was always helpful and a great companion for this adventure we will surely remember for the rest of our lives.

I've had a fantastic experience with Jared. The tour we went on was tailored to my needs and Jared was flexible to change parts of it on my request before the tour but also rearranged throughout the day when necessary. The communication was great before, during and after the experience. He brought me to beautiful places and I loved the variety of them very much. Apart from seeing all these wonderful places I hadn't been to we also had good conversation and lots of fun. It was an amazing day and I can recommend Jared as the tour guide of choice! - Maike, Germany
